SELECTED PUBLICATIONS (including book chapters) in chronological order

- Mehta S, Grinnell F. Changes in cell function due to stress in the extracellular matrix. *Proceedings of the Tenth Southern Biomedical Engineering Conference*. 1992.
- Mehta S, Liang W, Reed B, Antich PP. Response of bone cells with long-term exposure to fluoride. *J Bone and Mineral Research***8(Suppl 1)**:S310. 1993.
- Mehta S, Reed B, Antich PP. Effects of high levels of fluoride on bone formation: an *in vitro* model system. *J Bone and Mineral Research***8(Suppl 1)**:S241. 1993.
- Mehta S, Antich PP. How does matrix composition influence bone material elasticity as measured by critical angle reflection ultrasound?. Texas Mineralized Tissue Society, *Proceedings of the 6th annual meeting*. 1994.
- Mehta S, Ashman R, Anderson J and Antich PP: Contribution of matrix constituents to bone elasticity and ultrasound velocity. *J Bone Miner Res*, **9(1)**:S156, #142, 1994.
- Mehta S, Reed B, Antich PP. The effects of fluoride on bone formation: an *in vitro* model. *Biomaterials*. **16**: 97-102, 1995.
- Antich PP, Mehta S. Ultrasound Critical-angle Reflectometry (UCR): A new modality for functional elastometric imaging. *Physics Med Biol* **42**:1763-1777, 1997.
- Antich PP, Mehta S, Daphtary M, Smith B, Vaguine V. Bone elastometric imaging using ultrasound critical angle reflectometry (UCR) in *Acoustical Imaging V23*. Eds. S Lees and L. Ferrari. NY: Plenum Press. p. 145-150, 1997.
- Zerwekh JE, Antich PP, Mehta S, Sakhaee K, Gottschalk F, Pak CYC. Reflection ultrasound velocities and histomorphometric and connectivity analyses: Correlations and effect of slow-release sodium fluoride. *J Bone Miner Res* **12**:2068-2075. 1997.
- Fratzl P, Rinnerthaler S, Roschger P, Klaushofer K, Zerwekh J, Mehta S, Antich P and Pak CYC. Nanostructure and elasticity of bone material after slow-release sodium fluoride treatment in osteoporosis. *Bone* **23(5 Suppl)**: S466 1997.
- Zerwekh J, Mehta S, Antich P, Sakhaee K and Pak CYC. Material quality of human cancellous bone increases with low levels of fluoride. *Bone* **23(5 Suppl)**:S468. 1997.
- Mantri M, Nanu L, Oz OK, Mehta S and Antich P. Molecular influences on bone mechanics. *Bone* **23(5 Suppl)**:S230. 1997.

- Mehta S, Oz OK, Antich PP. Bone elasticity and ultrasound velocity are affected by subtle changes in the organic matrix. *J Bone Miner Res* **13(1)**:114-211. 1998.
- Mehta S, Antich PP, Landis WJ. Bone material elasticity in a murine model of osteogenesis imperfecta. *Connective Tissue Res* **40**:189-198, 1999.
- Mehta SS, Smith B, Daphtary MD and Antich PP. In vivo assessment of bone material axes using UCR. *Annals of Biomedical Engineering* **26 (Suppl 1)**: S116. 1999.
- Mehta SS and Antich PP. Discrete demineralization maintains stress-strain distribution in bone material. *Annals of Biomedical Engineering* **26 (Suppl 1)**: S75. 1999.
- Mehta S, Antich PP, Oz OK, Lewis M, Daphtary M and Smith B. "Studies of bone biophysics using ultrasound velocity" in *Acoustical Imaging, Volume 24*. Eds. Hua Lee. NY: Kluwer Academic/Plenum Press. p. 341-348. 2000.
- Antich PP, Mehta S, Daphtary M, Lewis M, Smith B and Pak CYC. "In vivo study of the influence of gravity on cortical and cancellous bone velocity." in *Acoustical Imaging, Volume 24*. Eds. Hua Lee. NY: Kluwer Academic/Plenum Press. p. 301-308. 2000.
- Antich P, Mehta S. Properties and measurements of hard tissues: Ultrasound critical-angle reflectometry. In *Handbook of Elastic Properties of Solids, Liquids, and Gases (4-Volume Set)*. Eds Levy, Bass and Stern. NY: Academic Press. p182-192. 2000.
- Brostow W, Jaklewicz M, Mehta S and Ruck O. Orientation in molecular composites: controlled mechanical properties. Presented at the *Polychar World Forum on Polymer Applications and Theory (Polychar-9)*, University of North Texas, Denton. January 2001.
- Peters L, Burke R and Mehta S. Biostatistics: The hidden path to life science innovation in *Technology Management in The Knowledge Era*. Eds: Dundar Kocaoglu and Timothy Anderson. IEEE Press: Piscataway, NJ. pp. 610-617. 2001.
- Brostow W, Jaklewicz M, Mehta S, and Montemartini P. Effects of magnetic fields on flexural properties of a longitudinal polymer liquid crystal. *Mat Res Innovat* 5: 261-267. 2002.
- Mehta S., Peters L and Burke R. Awakening the dragon's breath: Sources of competition in the pharmaceutical industry. *IEEE IEMC Proceedings* Albany, NY: 2003.
- Young, N. and Mehta, S. "The Social Structure of Innovation." Paper presented at Lally-Severino *ENI Symposium on the Intersection of Entrepreneurship, Networks, and Innovation*, in Troy, NY, held on 2-3 October 2003.
- Mehta S. The emerging role of academia in commercializing innovation. *Nature Biotechnology*. **22**: 21-24. 2004.

Mehta S. Biotechnology, Pharmaceuticals and the Bayh-Dole Act *Journal of Biolaw and Business* 7(1): 2004.

Mehta S. Paths to new venture creation in life science startups. *Nature Biotechnology*. 22: 1609-1612. 2004.

Mehta S and Peters L. Outsourcing a core competency. *Research Technology Management*. May/Jun 2007; vol. 50, #3: p 28.

RECENT BOOKS:

Mehta, S. *Commercializing Successful Biomedical Technologies: Basic Principles for the Development of Drugs, Diagnostics and Device*; Cambridge University Press, 2008.
